REASONS FOR ALLOWANCE

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render an obviousness of a method of performing a pipelined arithmetic function comprising the steps of: receiving two N-bit operands into each of a plurality of adder elements in separate pipelines; performing an add operation to generate N-bit result and a first carry bit; receiving the first N-bit result and the first carry bit into a respective register and carry bit register; an incrementor outputting in one of pipelines a second N-bit result and a second carry bit from combination of a first result from a first of N-bit result registers, a first carry bit from a first of carry bit registers, and a first carry bit from a second of carry bit registers from a second of pipelines as seen more or less in all independent claims 1, 8, and 16.

The closest found prior art is Kobayashi et al. (U.S. 6,199,091). Kobayashi et al. disclose a carry skip adder in pipeline manner comprising receiving two operands into each of a plurality of adder elements; performing an add operation to generate N-bit result and a first carry bit; receiving the first result and the first carry bit; and an incrementor. However, Kobayashi et al. fail to clearly define or disclose a pipelined structure of an adder comprising register and carry bit registers for each separate pipeline and an incrementor outputting in one of pipelines a second N-bit result and a second

carry bit from combination of a first result from a first of N-bit result registers, a first carry bit from a first of carry bit registers, and a first carry bit from a second of carry bit registers from a second of pipelines as seen above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to whose telephone number is (571) 272-3721. The examiner can normally be reached on 7:00AM to 5:00PM M-Th.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chaki Kakali can be reached on (571) 272-3719. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
